

ANALYTICAL SERVICES

Fiberquant, Inc., or its predecessor company SEMTEC Laboratories, Inc., has been performing asbestos analysis in Phoenix, Arizona since 1979. Over the years, the methods have changed, but our goal has not: to provide our clients with the highest quality of analysis possible. With a staff of eight degreed scientists (five in geology or geochemistry including a PhD and 3 Masters), we feel that our qualifications are second to none. Additionally, we intend to provide a high level of service, whether that means to experiment, improve upon or learn about analysis methods, to work on a problem analysis until it is solved rather than until it is uneconomical, to add a capability, such as TEM, Microbiology, or AA, so as to provide as complete an asbestos analytical service as possible, or to analyze during off hours or on weekends when needed. We sincerely appreciate the loyal clients that have come to us and stayed with us over the years, and we pledge to continue to provide them with the finest analyses and service that we can.

I. BULK ASBESTOS ANALYSIS

- ❖ Identification of asbestos and non-asbestos fiber types and percentages
 - ❖ Including point count of friable samples $\leq 1\%$ at no extra cost
 - ❖ NVLAP accredited, Lab # 1031
 - ❖ Method 600/M4-082-020 (Interim EPA) or 600/R-93/116 (EPA)

Normal	\$22.50/smp 1-3 day average turnaround
Nominal Quantity Discounted	\$17.00/smp 1-3 day average turnaround
Built-up Roofing	\$70.00/hour (1/3 hr min.)
Nominal Quantity Discounted	\$52.89/hour (1/3 hr min.)
Extended Turnaround PLM Analysis (Same analysis except for turnaround)	\$12.00/smp (turnaround varies)
<i>Above prices include analysis of all layers in sample; per layer prices available</i>	
Point Count (other than above, on request)	\$30.00/smp
XRD (Quantitative) of Floor Tile:	\$30.00/smp 1-2 day average turnaround
600/R-93/116 gravimetry w/ qual TEM (Chatfield Method)	\$90.00/smp 3-5 day average turnaround
600/R-93/116 gravimetry w/ quant TEM	\$350.00/smp 5-10 day average turnaround

*Immediate turnaround available at 50% Rush Surcharge
Call for Quantity Discount Prices, Quotes or Bids*

II. PCM FILTER FIBER COUNTS

- ❖ Fiber counts reported in fibers/mm² and fibers/cc
 - ❖ AIHA Accredited, Lab # 452
 - ❖ FAX of results included
- ❖ NIOSH 7400 or OSHA Reference Method
 - ❖ Special counts available on request

Normal	\$12.00/smp 24 hr average turnaround
Nominal Quantity Discounted	\$10.00/smp 24 hr average turnaround
Extended Turnaround Analysis	\$6.00/smp 3-5 day average turnaround

*Immediate turnaround (1-4 hrs) available at 50% Rush Surcharge
Blanks: 1/2 price of air samples.*

III. TEM FILTER ASBESTOS STRUCTURE COUNTS

- ❖ Asbestos fiber identification and counts reported in structures/mm² and structures/cc
 - ❖ NVLAP accredited, Lab # 1031
 - ❖ FAX of results included

Air Samples:(AHERA,NIOSH 7402)	
Normal Turnaround (Analysis during Office Hours)	\$100.00/smp 8-24 hrs average turnaround
Super Rush, After Hours or Weekend Turnaround	\$150.00/smp <6 hr average turnaround
Extended Turnaround	\$60.00/smp 3-5 days average turnaround
Drinking Water samples: (EPA draft method)	\$150.00/smp 5-10 days average turnaround
More than 10 samples	\$135.00/smp 5-10 days average turnaround
Compositing	\$50.00/set (\$40.00 discount for quantity)
Sludge (>0.01% solids):	\$200.00/smp 5-10 days average turnaround
Dust samples: (ASTM method)	\$350.00/smp 5-10 days average turnaround
Blanks: 1/2 price	

*Immediate Turnaround on Water Smpls for 50% Rush Surcharge
Call for Quantity Discount Prices, Quotes or Bids*

IV. LEAD IN PAINT SURVEYS

❖State-of-the-Art Portable Spectrum Analyzer, as recommended by HUD

On-site Pb Analysis	\$100.00/hr
Travel Time to & from site	\$50.00/hr
In-Lab Test on large paint chip	\$10.00/smp 24 hrs average turnaround

V. LEAD IN PAINT / SOILS/WIPE/AIR SAMPLES

❖Flame Atomic Absorption-Modified EPA SW 3050a/7062, various NIOSH methods
❖AIHA Accredited, NLLAP Recognized Lab #10873
❖For risk assessment, clearance, monitoring of Pb

AA Sample, paint, soil, wipe (includes digestion)	\$25.00/smp 1-3 days average turnaround
Nominal Quantity Discounted	\$20/smp 1-3 day average turnaround
AA Sample, filter (includes digestion)	\$20.00/smp 1-3 days average turnaround
Nominal Quantity Discounted	\$15/smp 1-3 day average turnaround

*Immediate turnaround (<6 hrs) available at 50% Rush Surcharge (\$100 minimum)
Call for Quantity Discount Prices, Quotes or Bids*

VI. Mold Spore Analyses

❖All Analysts have successfully completed Indoor Air Quality at the McCrone Research Institute

Mold spore identification of bulk sample	\$25.00/smp 1-2 day average turnaround
Zefon Air-o-Cell mold spore count/identification	\$45.00/smp 1-2 day average turnaround
Culturable Samples (plates or swabs)	\$45.00/smp 7-9 day average turnaround

Immediate turnaround (<6 hrs) available for non-culturable samples at 50% Rush Surcharge. Samples to be cultured cannot be rushed.

Off-hours policies (for rush samples done other than 8AM-6PM Monday thru Friday):

Rush charges are 50% surcharge per sample between 6AM-8AM or 6PM and 12AM. and 100% surcharge between 12AM and 6AM, but for small numbers of samples requiring a trip to the lab:

MOLD/PCM: \$65.00 minimum surcharge per extra trip to lab, \$130.00 minimum for work done 12AM-6AM

TEM/AA: \$150.00 minimum surcharge per extra trip to lab, \$300.00 minimum for work done 12AM-6AM

Discounts for quantity vary according to the number of samples and the turnaround time. For large jobs or bids, call for a quotation
Prices effective January 1, 2002
